# WELCOME TO WEED WORLD

# ISSUE 153

WEED WORLD was founded in 1991 and is a bi-monthly (published every 2 months) magazine. We always knew the true benefits of medical marijuana so, with this in mind, we became a fighter for the cause and a true innovator. Our job was to keep people informed about this wonderful plant and how they can medicate themselves. We are still doing that to this day! Thanks to all of our readers for supporting us over the years and to all of the people who work with us to help create this amazing magazine.

## WELCOME TO ISSUE 153

Hopefully life is getting back to some form of normality.

In the meantime, we have some fantastic articles for you this issue:

Paul James answers, "Does Cannabis Legalization Reduce the Effects of the Illicit Market?"; Dario examines CBD in sport and investigates, "Why we still don't use hemp plastic"; Sharon Letts interviews two interesting ladies, Callie Seaman and Casey Mitchell, in "Women of Weed World"; Dutch Passion explain, "How to increase THC levels in autoflowers"; Hella Dank delivers the first part of interesting series "Is Hashmaking the Key to Alchemical Gold?"

And, as usual, there's so much more...

## NEVER MISS AN ISSUE!

Weed World magazine subscriptions are available in print and digital formats.

The Weed World magazine app is available to download for your tablet and phone.

**WARNING!** Germination of Cannabis seed is illegal in the UK. Weed World Ltd sells seed as a collectible adult souvenir only. Please note: You have to be at least 18 years old to order any seeds.

**UNITED KINGDOM LAWS.** By section 6 of the Misuse of Drugs Act 1971 it is an offence to cultivate any plant of the genus Cannabis in the United Kingdom without a license from the Secretary of State. Anyone committing an offence contrary to this section may be imprisoned or fined, or both. Please note therefore that germination of cannabis seeds, without an appropriate license is illegal in the United Kingdom.

**INTERNATIONAL LAWS.** We dispatch our seeds on the condition that they will not be used by others in conflict with applicable local law. Unfortunately, regulation and implementation in respect of cannabis seeds differ tremendously from country to country. For this reason we advise you as a matter of urgency to make inquiries about the regulations in your country. Please be aware that even though some countries' laws are changing, please check your country's and do not violate any laws!

As a Weed World customer, you are prohibited from distributing seeds purchased, solely on the premise for souvenir or nutritional use only; to countries where possession of and/or trafficking in Cannabis seeds is illegal. Weed World Magazine Ltd and Weed World E-Zine, (to include Online Store) does not wish to induce anyone to act in conflict with the law. All persons who purchase seeds from Weed World online store, are responsible for their own actions in the future. All information contained within Weed World publications is strictly for educational purposes only and is not intended to condone, promote or incite the use of illegal and/or controlled substances.

THE ITALIAN VERSION OF WEED WORLD MAGAZINE will vary slightly from the English version. It features cannabis news, laws and legalization news relevant for the Italian market.

# Spanish Government to Examine Benefits of Legalizing Medical Cannabis

By Bethan Bee Rose

The Spanish Government is leaning towards the prospect of legalizing cannabis for medical purposes. Should this happen, Spain will join a growing number of European and international countries that permit medicinal cannabis use for the treatment of widespread diagnosable conditions and diseases.

An unexpected incident recently occurred when the Plenary Assembly of Congress approved the establishment of a subcommittee to investigate the medical use of cannabis. Once their investigation is complete, the Plenary is expected to compile a report outlining scientific proof of cannabis' therapeutic benefits, as well as the potential risks.

Composed by Basque nationalist and regionalist political party Partido Nacionalista Vasco (PNV), Spain's medical cannabis proposal gained support from most Plenary attendees. Specifically, 206 voted in favor of the bill and 141 objected to its legal language. The PNV says that, before legalization ensues, science must offer surefire evidence of cannabis' therapeutic qualities.

A handful of European countries have already started the process of regulating medical cannabis, including Germany, France, Portugal and Sweden. Beyond Europe's borders, cannabis is permitted for medical use in Australia, Canada and the United States. ....continued overleaf

# Morocco is Gearing up to Target the European Cannabis Market

By Bethan Bee Rose

Boasting a climate on-par with Israel's, Morocco is a fine contender to dominate the legal cannabis market. The North African kingdom's first move into the regulated market centers around medical cannabis legalization.

As a country with plenty of spare land and a history of cannabis growing, it's understandable why Morocco is finally riding the green wave that's projected to seriously bulk up the economy.

The most recent update on Morocco's cannabis industry occurred on May 26, 2021, when the Moroccan parliament voted to legalize medical cannabis use. Not only this, but the government passed a law to permit the plant's use for cosmetic and industrial purposes.

A second vote on June 16th confirmed the legalization of medical cannabis in Morocco; following some minor amendments suggested by the Chamber of Councilors.

## About Morocco's Medical Cannabis Law

Cannabis has been illegal in the African country of Morocco since the nation became an independent country in 1956. Cannabis prohibition in Morocco was reaffirmed in 1975, when the government decided to completely ban drugs. Nonetheless, cannabis was still somewhat tolerated and has been grown in Morocco for centuries.

Despite the plant's legal status—recreational cannabis remains illegal in Morocco—the country ranks as one of the world's top producers of hashish. Under the terms of Morocco's new medical cannabis law, cannabis will be permitted for use in cosmetics, medicine, and for industrial purposes.

The Ministry of the Interior is responsible for drafting the bill, which aims to regulate all cannabis-related activities, including the cultivation, marketing, manufacturing, production and transportation of the plant. In addition to this, the bill oversees all issues related to medical and therapeutic cannabis exports/imports.
