WELCOME TO WEED WORLD

ISSUE 155

WEED WORLD was founded in 1991 and is a bi-monthly (published every 2 months) magazine. We always knew the true benefits of medical marijuana so, with this in mind, we became a fighter for the cause and a true innovator. Our job was to keep people informed about this wonderful plant and how they can medicate themselves. We are still doing that to this day! Thanks to all of our readers for supporting us over the years and to all of the people who work with us to help create this amazing magazine.

WELCOME TO THE LAST ISSUE OF THE YEAR, AND FIRST OF THE NEW YEAR – 2022!

We hope you have a successful grow and bumper harvest.

In this issue, we have some fantastic articles from Dario, "How CBD derivatives can treat inflammation, pain and reduce obesity", and Paul James covers "Cannabis Consumption and Pregnancy Shot up during the Pandemic: What Do you Need to Know."

We have a new writer, Tyler Baum, who looks at "Establishing Equality in an Emerging Industry." We have a new "Grow Diary" feature, not to mention some excellent Grow Reports from some fantastic established breeders, such as Barney's Farm and Sweet Seeds. Plus much more...

How CBG Derivatives Can Treat Inflammation, Pain, and Reduce Obesity

By Dario Sabaghi

The 'Father of Cannabis Research' Raphael Mechoulam has studied how new cannabigerol derivatives can reduce inflammation, pain and treat obesity.

The Israeli researcher who isolated in 1969 tetrahydrocannabinol (THC), the main psychoactive compound of the cannabis plant, has published a new study in *Molecules*, a peer-reviewed, open-access journal of chemistry.

WEEK 3 VEG

I had a great few weeks of growth for my photoperiod strain "Candyland"

After a couple of weeks of growth, I will top her then take cuttings to clone up and transfer into my hydroponics nft system.

WEEK 2 VEG

My "Candyland" from ETS has shown remarkable growth in just a few weeks. She's only in her second week from germination, and she's looking
